## ABOUT DR TECH SUMMIT

DR Tech Summit is the world's most iconic summit curating an active network of Dominican Republic's investors, tech entrepreneurs, celebrities, politicians and business moguls. Each year the program gathers thousands of pioneers from across Dominican Republic and around the world to address and tackle challenges that affect Dominican Republic's future. The summit serves as a platform for influencers who are sourcing innovative solutions and partners that leverage exponential technology to accelerate Dominican Republic as the world's final tech frontier hub.

## ABOUT GLOBAL STARTUP ECOSYSTEM

Global Startup Ecosystem (GSE): is the world's first digital accelerator and leads today as one of the largest digital ecosystem development platforms. With a mission to educate, inspire and prepare individuals and organizations for the digital age, GSE brings together both private and public stakeholders to address humanity's greatest challenges via exponential technologies and entrepreneurship.

GSE is now the fastest growing tech and business community with an online network that accelerates 1000+ companies a year across 90+ countries and offline network that supports 75,000+ global delegates a year via its iconic tech summits. This evolving tech community is now a source of tech talent for the remote workforce of the future; accelerating people into the fastest growing tech startups and corporate career networks.

## Our 3 Pillars of Ecosystem Engagement

### ENTREPRENEURSHIP

We are the leading platform for tech ecosystem building in the world. We have supported the launch of accelerators, tech summits and tech initiatives in numerous countries.

### EMPLOYMENT

We host career workshops and personal development sessions on a regular basis.

We have one of the largest databases of tech talent in the world and host vertical topic and nationwide digital career accelerators.

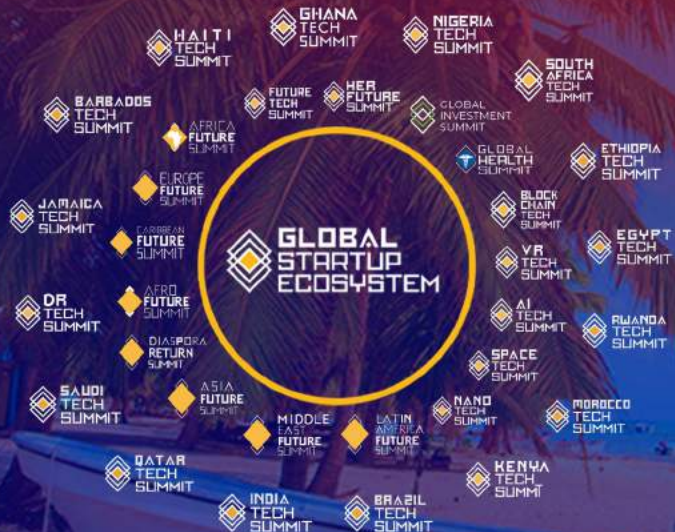

### EDUCATION

We conduct workshops, bootcamps, and webinars preparing participants for the digital age.

Topics of discussion prioritise future tech content such as artificial intelligence, nano, blockchain, virtual reality, space and IOT

## GSE BRANDS UNDER MANAGEMENT

Global Startup Ecosystem (GSE) owns over 100+ tech summit brands serving different countries and industry verticals and launch new brands from the portfolio based on demand and growing global partnerships.

We believe that every country in the world will prioritize tech as a central component of a nation's economic and social development to be competitive in today's digital society. To support this accelerating trend, we position ourselves to remain at the forefront of institutional planning at the government level in many nation states around the world.

## GSE SUMMIT ROADMAP

The Global Startup Ecosystem hosts dozens of annual tech summits around the world to help government and corporate initiatives succeed in achieving the 17 Sustainable Development Goals by 2030. As the fastest growing tech community of pioneers with purpose, GSE, gathers thousands of innovative influencers each year with the goal of creating tech hubs in emerging market countries.

Former speakers at our summits include Jack Dorsey (Founder of Twitter), Ben Horowitz (Investor Twitter, Facebook), Tim Draper (Investor in Skype, Hotmail etc); Naveen Jain (Founder of Moon Express, Viome etc.); Current President of Haiti Jovenel Moise; Sophia the Celebrity Robot (Hanson Robotics), Vicky Jeudy from Netflix Orange is the New Black; and VP+CEOs from Google, Facebook, Airbnb, Uber and more
